

Timeline Image for Profiles or Pages

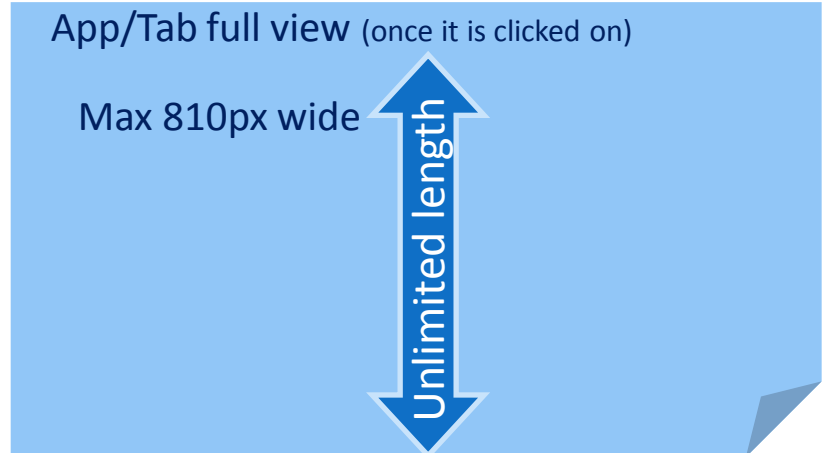

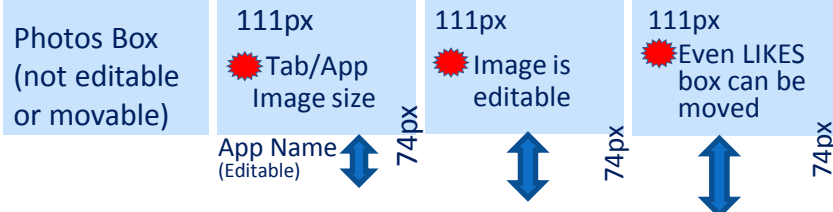

Facebook will resize photo to 160 x 160 but your upload must not be smaller than 180x 180.

You can upload a taller image and you will be allowed to choose 125x125 of the image to use as your thumbnail which will show next to your posts. But if someone clicks on the image they you will see the taller one.

Try not to use a lot of text on image because when it is small it won't be legible.

~ See Photo Tips below about adding a description

Status Updates (or better known as 'Posts')

63,000 Character Limit

Uploading images  
Maximum Photo Size  
2048 x 2048

Video

Size : 1024 mb  
Length Max 20 min.

You Tube videos will play easily, in your post, if you simply include the YT embed code in your post after your text.

**Photo Tips**

Milestone/Highlighted Photo Size 843px x 403px

Pinned Post Photo Size 403px x 403px

Pictures displayed in Facebook 960px x 720px

Don't forget to add descriptions to all photos (even cover photo) and if you place a full url in description (<http://www.xyz.xxx>) it will become a direct link to the web address.
